Settings - Security

Turn on two-factor authentication or change your password in the Security settings.

- 1 Click your name.
- 2 Click **Settings**.
- 3 Select **Security**.

Security Information

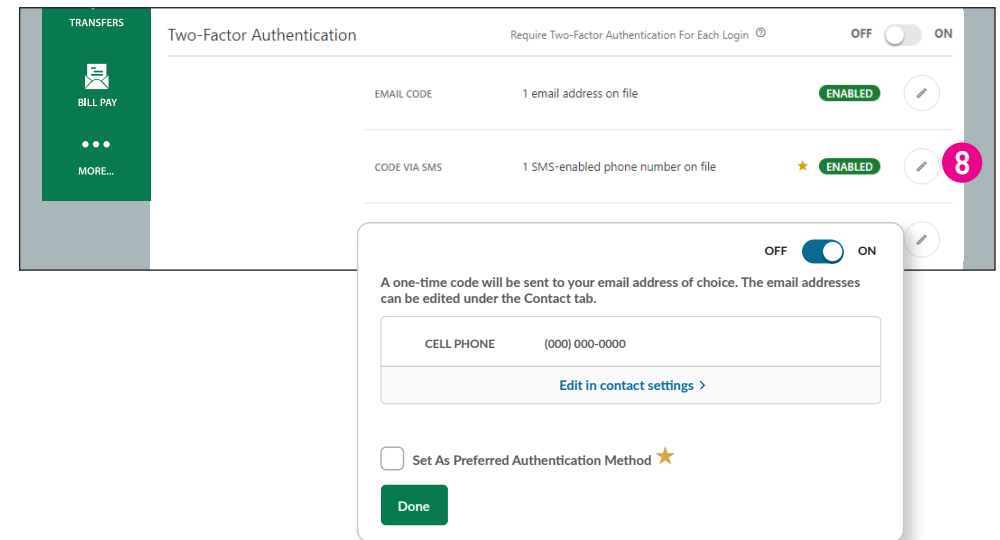

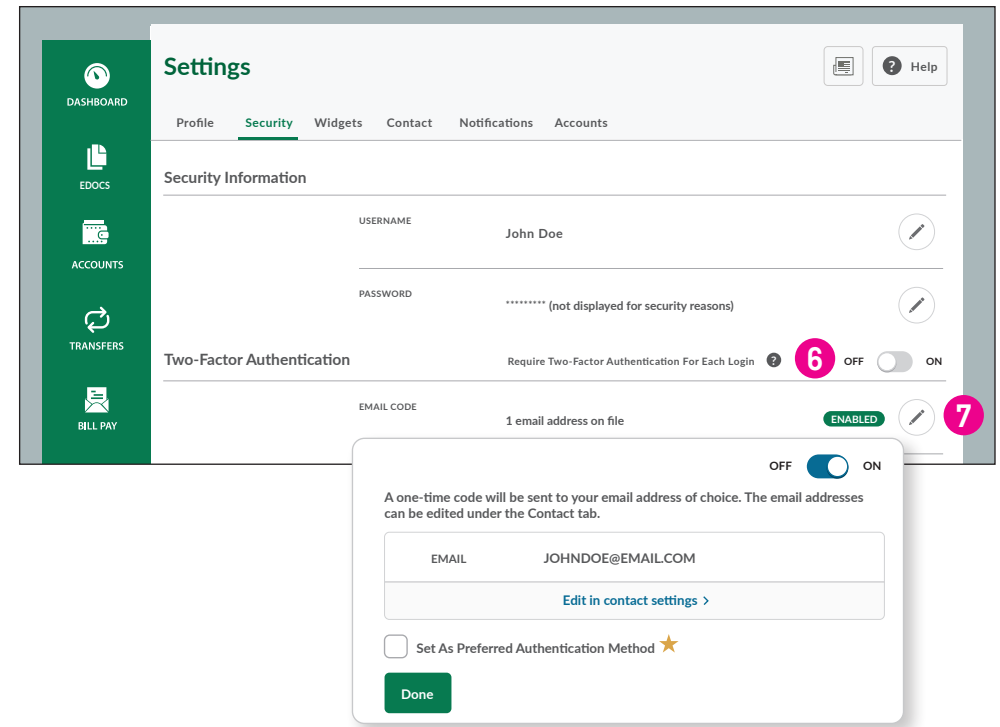

- 4 This shows your username. To change it, click on the pencil icon. Usernames must not already be in use, be between 8 and 15 characters and may use any combination of letters, numbers, periods and underscores. Click **Save Changes** to update or **Cancel** to cancel.
- 5 Your password is hidden for security purposes. To change it, click the pencil icon.
 - A Type your current password here.
 - B Type your new password here.
 - C Type your new password again here to confirm it.Click **Save Changes** to update or **Cancel** to cancel.

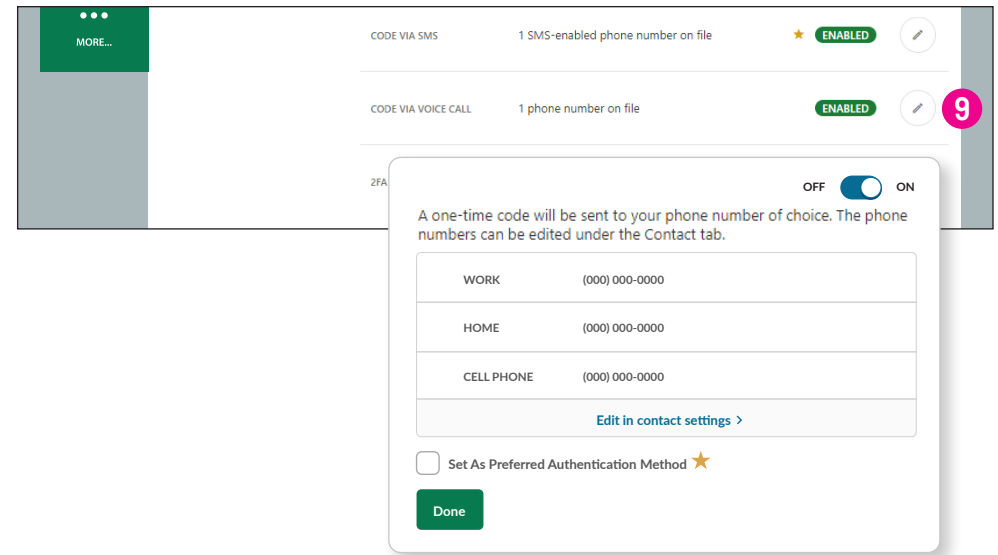

Two-Factor Authentication

Two-factor authentication (2FA) is an added layer of security you can choose to activate. When you log in to online banking, a code will be sent to your phone or email to verify your identity. This prevents scammers from accessing your account with only your username and password.

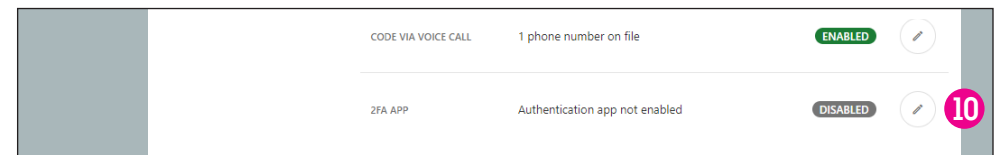

- 6 To use two-factor authentication on each login, regardless of device, move this switch to **ON**.
- 7 To receive a code via email, click the pencil icon and move the switch to **ON**. (You must have an email address associated with your account. To add one, see **Settings - Contact**.) Click **Done**.
- 8 To receive a code via text message, click the pencil icon and move the switch to **ON**. (You must have a phone number associated with your account. To add one, see **Settings - Contact**.) Click **Done**.

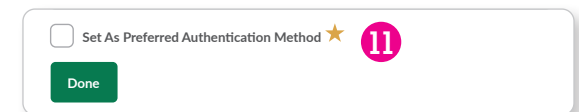

- 9 To receive a code via phone call, click the pencil icon and move the switch to **ON**. (You must have a phone number associated with your account. To add one, see **Settings - Contact**.) Click **Done**.

- 10 To receive a code via an authentication app like Google Authenticator, click the pencil icon and then **Enroll**. Follow the on-screen instructions to link your app. Once you're done, move the switch to **ON** and click **Done**.

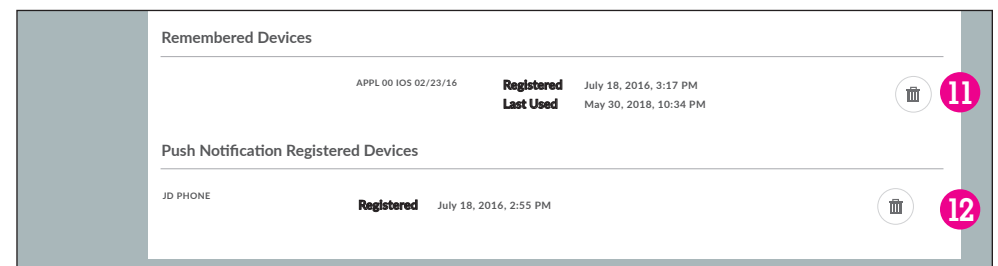

- 11 If you activate more than one form of two-factor authentication, you can check the box next to **Set As Preferred Authentication Method** before you click **Done** to make that the default choice.

Remembered Devices

- 12 This section lists devices you have logged in from before and chosen to remember. To delete a device from this list, click on the trash can icon next to it.

Push Notification Registered Devices

- 13 This section lists devices you have allowed push notifications on. To delete a device from this list, click on the trash can icon next to it.
